Education

BEng in Electronic and Computer Engineering

University of Limerick, Expected Graduation: 2026

- QCA: 3.72 / 4.0, Intel Shannon Paul Whelan Scholarship Recipient
- Elected Class Representative

Leaving Certificate, Ardscoil Rís, Limerick, 2022

- **Results:** 613 / 625, Maths (H1), Physics (H1), Applied Maths (H1), DCG (H1), French (H1), English (H2), Irish (H2)
-

Skills

- **Software & Tools:** Linux, Git, Bash, DPDK, Visual Studio, Raspberry Pi, Arduino, Tensorflow
 - **Technical Skills:** Programming (C, Python, Rust, Java, JavaScript); Circuit Analysis
-

Experience

Intern Software Engineer

Intel, Shannon | June 2024 - Present

- Contributed code to open-source projects (DPDK) using C, Python, Linux, and Rust, submitting multiple code patches.
- Gained experience in code collaboration, API development, and large-scale software projects, emphasizing clear communication and best coding practices.
- Member of winning team for Intel Shannon's 2024 STEM Challenge, creating a climber safety solution.

Technician

Johnson & Johnson

- Oversaw production line machinery for contact lens packaging.

Other Experience

- **Bar Staff at Locke Bar & Thomond Park** – Built interpersonal skills in fast-paced environments.

Projects & Achievements

Wordle Bot

- Developed a Python bot applying information theory to optimize Wordle guesses.

Scootsure – Electric Scooter Safety & Insurability

- **Awards:** Highly Commended at BT Young Scientist, Best Project at SciFest Regional
- Created prototype using JavaScript and Python for safety monitoring and data collection for scooter user insurability.

TagBuddy – Teen Messaging App

- **Awards:** BT Young Scientist Intermediate Technology 2nd Place, IE Domain Registry Award
- Built a privacy-focused messaging app with TypeScript, Firebase to improve safety for teens.

Referee System for Rugby

- **Awards:** 1st Place Junior Technology at BT Young Scientist
- Designed an Arduino-based communication tool for referees.

Additional Achievements

- **Patch 2022 Cohort:** Developed "DispensAPill" for elderly medicine dispensing.
- **BT Business Bootcamp:** Selected from 550 applicants for product development camp.

Additional Information

- **Interests:** Surfing, Karting, Soccer, Software Development, Electronics, PC Building
